New Presentation Resource: Urban AI/AN Health Indicator Graphs

The Urban Indian Health Institute has compiled a PowerPoint presentation resource which includes graphs and tables highlighting urban American Indian and Alaska Native (AI/AN) health indicators from select UIHI reports. This resource is available to be used by urban Indian health organizations and other partners serving urban AI/AN communities for health status and disparities presentations, grant applications, and other activities. Data has been included from five UIHI reports. Detailed information on data sources, study populations, and limitations may be obtained by accessing the individual reports on the UIHI Reports Page:
