Announcement

Coming Soon from the UIHI: 2008-2012 Diabetes Care and Outcomes Audit Summary Reports

The Urban Indian Health Institute has developed Diabetes Care and Outcomes Audit Summary Reports for IHS-funded Urban Indian Health Organizations (UIHOs) that participate in the Special Diabetes Program for Indians. This report translates Diabetes Audit findings into meaningful statistics to help track progress and improve diabetes care.

This week, print copies of the reports will be sent to executive directors and diabetes
coordinators at each UIHO program. Each program also will be sent information on how to access electronic versions of the current and past years’ reports, as well as PowerPoint presentations with the findings. These are available only to participating facilities.

A publically accessible aggregate report with all UIHO data will be available at the end of May.

For information or assistance with your facility’s diabetes report, please contact Elizabeth Knaster at ElizabethK@uihi.org.

**Funding Opportunity**

**Substance Abuse Treatment for Racial/Ethnic Minority Women at High Risk for HIV/AIDS Grants**

The Substance Abuse and Mental Health Services Administration, Center for Substance Abuse Treatment is accepting applications for Targeted Capacity Expansion: Substance Abuse Treatment for Racial/Ethnic Minority Women at High Risk for HIV/AIDS grants. The purpose of this program is to expand substance abuse treatment and HIV services for racial/ethnic minority women (ages 18 years and older) and their significant others, who have substance use or co-occurring substance use and mental disorders and are living with, or are at risk for, HIV/AIDS.

Application Deadline: **May 14, 2013**  
Award Amount: $520,000 per year for up to 3 years

More information about the Substance Abuse Treatment Grants can be found online.

**Training**

**Best Practices in Women's Health: Focus on the American Indian/Alaska Native Woman Course**

Best Practices in Women's Health: Focus on the American Indian/Alaska Native Woman is a three-day multidisciplinary course that provides practical, evidence-based approaches to the recognition, management, consultation and referral of health problems of AI/AN women. The course is designed for IHS, Tribal and Urban primary care providers and nurses. The Advanced Life Support in Obstetrics certification will also be available.

April 26-28, 2013  
Window Rock, AZ and Fort Defiance, AZ

More information about the Best Practices in Women’s Health Course can be found by emailing Melony Hawkins at MHawkins@acog.org.

**Fellowship**

**National Institutes of Health Program Support Assistant Internship**

The National Institutes of Health (NIH) Internship Program is for current students who are enrolled in high school, college, professional, technical, vocational, or trade school. It is intended to promote possible careers in the civil service to students and individuals
accepted for enrollment in a qualifying educational program. The NIH Internship Program offers mentorship throughout the program, individual development planning, professional development, training activities and opportunities for career development.

Salary Range: $22,115 - $30,456
Application Deadline: March 27, 2013

More information about the NIH Internship Program can be found online.

More reports, resources and other information can be found on the UIHI website, www.uihi.org
