National IHS HIV/AIDS Program Webinar

Men who have sex with men are disproportionately represented in new HIV infections and existing HIV and AIDS cases among American Indians and Alaska Natives. This webinar will present several products, campaigns, educational resources and programs that have been developed recently for AI/AN lesbian, gay, bisexual, transgender, queer and two spirit (LGBTQ2-S) communities. These resources can be used to help support local efforts to combat stigma, promote awareness, HIV testing and encourage more equitable community norms.
