Implementing the New International Classification of Diseases Webinar

The National Council for Behavioral Health will host the upcoming webinar, “Transitioning to ICD-10: Why It's Important to Behavioral Health Care Providers and How To Prepare.” The 10th edition of the International Statistical Classification of Diseases and Related Health Problems (ICD) will modify diagnosis and inpatient procedure coding for everyone covered by the Health Insurance Portability and Accountability Act (HIPAA). All substance
use or mental disorder services provided are subject to HIPAA standards. As a result, behavioral health providers must make this transition by October 1, 2014.

**January 24, 2014** 12:00 p.m. - 1:30 p.m. (Eastern Time)

**STEP-UP Summer Research Program for American Indian/Alaska Native High School Students and Mentors**

The Short-Term Research Experience for Underrepresented Persons (STEP-UP) is a federally funded program managed and supported by the National Institute of Diabetes and Digestive and Kidney Disease (NIDDK). The overall goal of the NIDDK's STEP-UP program is to build and sustain a biomedical, behavioral, clinical and social science research pipeline focused on NIDDK mission areas. The project aims to expose AI/AN current year junior and senior high school students to the science of diabetes, endocrinology, metabolism, nutrition and obesity through an 8-10 week summer research program.

Application Deadline: **February 15, 2014**
