Please select all relevant funding priority areas

- ☐ Legal right to data governance through treaty and trust responsibility
- ☐ Restoration of cultural and spiritual practices that include the believe systems that are contrary to western religious practices and common belief systems. This includes but is not limited to spiritual connections to land and animals that inform data practices, beliefs in ancestors guiding data, and other cultural practices that vary by tribe and region.
- ☐ Accountability to the next generations. This includes but is not limited to the passing down of ancestral knowledge, support of individuals building knowledge and stories or service to their communities, and the advancing of Indigenous scientific knowledge.
- ☐ Responsibility and accountability to data to sustain and build forward tribal strength and vitality.
- ☐ Collection of tribal affiliation and/or tribal enrollment as defined by each individual tribal nation.
- ☐ Acknowledgement of harmful data practices coupled with healing, restoration, and reparations.
- ☐ Strengths-based data collection, analysis, and dissemination.
- ☐ Protective community and cultural factors measured and weighted against disparities and gaps.
- ☐ Community governance every step of the way (collection, analysis, dissemination).
- ☐ Appropriate collection or race and ethnicity.
- ☐ Embedded accountability of entities for collection of race and ethnicity.
- ☐ Disaggregation of data by race, ethnicity, and multi-race.
- ☐ Undoing education disparities and narratives that are embedded in institutions that inhibit POC in data science fields.
- ☐ Small populations methodologies.
